About the Award

An annual award launched by Imam Abdulrahman bin Faisal University represented by the University Vice Presidency for Scientific Research and Innovation. This award aims to develop and embrace the innovative thinking of university employees at the individual and institutional levels, motivate them to practice creative and innovative thinking, and participate in providing original solutions to environmental and societal problems in a way that enhances the orientation towards knowledge economy and contributes to achieving sustainable development.

Award Objectives

- 1- Spreading and consolidating the culture of innovation and creativity among university employees.
- 2- Supporting and adopting the innovations of university employees and encouraging them to present their ideas and convert them into innovations of economic value.
- 3- Creating sustainable innovative solutions to environmental and social problems and strengthening the university's infrastructure.

Target Group

All university employees (faculty members - male and female students - university employees)

Together we build
innovate
and develop ...

Participate now in the

annual innovation award of Imam Abdulrahman bin Faisal University

to turn your creative ideas into effective innovative solutions
