

<b>Routine Microbiology.</b>	<b>Parasitology</b>	<b>Molecular Microbiology (PCR)</b>
Urine Culture and Sensitivity.	Routine Stool (Ova and Parasite) Analysis	BCID (Blood)
Stool Culture and Sensitivity	Stool Concentration	ME/Encephalitis Panel (CSF)
Blood Culture and Sensitivity	Occult Blood Test	Methicillin Resistant <i>staphylococcus aureus</i> (MRSA/SA)
Swabs Culture and Sensitivity	Direct Smear for WBC & RBC	Flu A, Flu B
CSF & Body Fluids Culture and Sensitivity	Fat Globules Examination	Respiratory syncytial virus (RSV)
Gram Staining.	Stool Culture and Sensitivity	<i>Clostridium difficile</i> ( <i>C. difficile</i> )
Aerobic & Anaerobic Culture and Sensitivity	Calprotectin (Quantum Blue)	Carbapenem Resistance (Carba-R)
VRE Screening Culture and Sensitivity	<i>Helicobacter pylori</i> Rapid Assay	SARS-COV-2
<i>Acinetobacter</i> Screening Culture		Accelerate pheno-system Identification and sensitivity
Environmental Screening Culture	<b>Urine analysis</b>	
Bone Marrow Culture	Urine Biochemical Analysis.	
Brucella Culture	Urine Microscopic Analysis	
MRSA Screening Culture		
Water Microbial Culture		
Tissue culture		
<i>Candida auris</i> screening culture
