Programs for applying for funded research projects 2021 in Converis system	3
First: Research Teams program	5
Second: Newly recruited faculty members program	9
Third: Program for postgraduate research students	13
Fourth: Undergraduate Research Program	15
Important Notes	17

# Program of applying for funded research projects 2021 in the Converis system

## Administration Track:

- 1-College of Applied Studies and Community Service
- 2-College of Business Administration
- 3-Community College

## Sciences Track:

- 1- Basic and Applied Scientific Research Center
- 2- College of Education - Jubail
- 3- College of Computer Science and Information Technology
- 4- Deanship of Information and Communication Technology
- 5- Deanship of Preparatory Year
- 6- Deanship of Scientific Research
- 8- College of Science:

## Health Track:

- 1- College of Medicine
- 2- College of Dentistry
- 3- College of Applied Medical Sciences - Dammam
- 4- College of Applied Medical Sciences - Jubail
- 5- College of Clinical Pharmacy
- 6- College of Public Health
- 7- College of Nursing
- 8- Institute for Research and Medical Consultations (IRMC)

## Multi-Disciplinary Track:

## Art Track:

- 1-College of Arts
- 2-College of Education

## Engineering Track:

- 1-College of Architecture and Planning
- 2-College of Design
- 3-College of Engineering

**First**

Research  
**T e a m s**  
program

1

The research proposal will be leading by the university's senior researchers, depending on the number of their publications in WOS & Scopus with highest number of citations.

2

The research leader (principle investigator) select his team from either his college or other colleges in the university as needed.

3

The research team should include two researchers (At least one researcher) from international Instituting such as ranked universities or research centers abroad in order to achieve international research collaboration.

4

The duration of the research project is the approved date issued by the Deanship of Scientific Research and approved in the Converis System.

5

The research project budget should not exceed two hundred thousand (200,000) SR for research projects of 24 months. the researcher should also publish between 4 to 6 scientific papers in journals classified in WOS or Scopus and approved by the university's scientific council.

6

The research project budget should not exceed one hundred thousand (100,000) SR for research projects of 12 months. the researcher should also publish at least (2) scientific papers in journals classified in WOS or Scopus and approved by the university's scientific council.

7

The research team should include number of undergraduates from the university, lecturers and teaching assistants.

8

Comply with scientific integrity in both the idea and the proposal and avoid similarity altogether with attaching a report from the program (iThenticate) including the percentage of similarity Index (SI) that should not exceed %10.

# Second

Newly recruited  
**f a c u l t y**  
**m e m b e r s**  
p r o g r a m

To be an assistant

1

professor for not more than two years.

The research proposal

2

will be funded with a budget up to 80000 SR.

Involve university faculty

3

members in the research project.

Involve undergraduates

4

from the university, lecturers and teaching assistants.

## The duration of the research project

5

is up to 12 months starting from the approved date issued by the Deanship of Scientific Research in the Converis System.

## The research team should publish 1 to 2 papers

6

reprinted from the research project and indexed in WOS & Scopus journals lists and approved by the university's scientific council.

## It is preferable to involve an international researcher

7

from international bodies such as universities or classified research centers in order to achieve international research collaboration.

## Comply with scientific integrity in both

8

the idea and the proposal and avoid similarity altogether with attaching a report from the program (iThenticate) including the percentage of similarity Index (SI) that should not exceed 10%.

# Third

Program for  
postgraduate  
**research**  
**students**

1

Application is available throughout the year for Master and PhD students.

2

The student should attach the approval of the Deanship of Graduate Studies to the research plan, should submit the request for the support within a year from the decision of the Deanship of Graduate Studies on the research plan.

3

If the proposal is approved by both the Deanship of Scientific Research and the Deanship of Graduate Studies, the project will be funded with an amount of 35000 SR. for master research and 50000 SR. for PhD research (Scientific and Applied disciplines only). As for theoretical disciplines the student will be funded 10000 SR.

4

Comply with scientific integrity in both the idea and the proposal and avoid similarity altogether with attaching a report from the program (Turnitin) including the percentage of similarity Index (SI) that should not exceed %10.

1

Undergraduate student may apply for this program as a principal investigator to conduct the graduation research.

2

Student will be funded with an amount of 25000 SR.

3

The department should appoint a supervisor for the student's research.

4

Student may apply for funding via Converis system during the given period under the supervision of a faculty member.

5

Comply with scientific integrity in both the idea and the proposal and avoid similarity altogether with attaching a report from the program (Turnitin) including the percentage of similarity Index (SI) that should not exceed %10.

# Fourth

## Undergraduate Research Program

# Important Notes

## | Faculty members login page

(email and password for university email)

## | The University Hospital researcher's entry page

(the username and password that is sent from the system to the user's email)

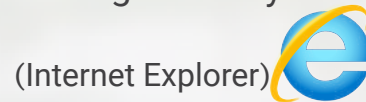

## |Student login page

(the username and password that are sent from the system to the user's email)

Kindly check your registered data in Converis system (specifically Department + College] to be able to submit the research proposal properly.

For a better browsing of the system, we hope to use

We are also pleased to receive inquiries and requests for assistance via e-mail for technical support for the Research Management System:
