فحصي الكروموسومات و التهجين الفلوري Chromosomal Analysis and FISH Analysis

Importance of Clinical Indication

The availability of sufficient clinical information for the reason of referral for Chromosomal Analysis and FISH Analysis will help with the proper sample processing procedure and increase the accuracy of the diagnosis, which subsequently improves the service provided by Cytogenetics Laboratory.

Orders for chromosomal analysis and FISH analysis will be reviewed by Cytogenetics laboratory section head or supervisor for acceptance or rejection based on provided clinical indications.

Orders for In-Patients

For approved or cancelled test order, the ordering physician will be informed.

In case of approved orders, the ordering physician or in-charge nurse will be informed

stating the date, time sample will be received in the lab
(Sunday and Monday between 7:00 a.m. and 11:30 p.m.).
