Vision:

Leadership in providing student activities, excellence in suggestions and solutions, and creating a competitive environment that makes the university a committed and distinguished community that supports students who love to compete globally in all fields.

Mission:

Knowledge **Excellence** **Innovation**

Strengthening and enhancing communication and dialogue between the student and the university.

Developing various activities for students, whether they are service, scientific, or activities.

Student council tasks

Transferring students' suggestions and views to the dean of the college or his representative.

Representing college students in meetings and events related to academic issues of interest to students at any party inside or outside the college.

Work to implement the students' proposals as much as possible, and solve their problems, through coordination with the concerned authorities.

Facing the challenges facing young people and social issues within the university community.

Supervising the student club for activities inside the college, and organizing the various activities of the university academic year.

Participate in the development of programs and study plans in the college on an ongoing basis, by adopting the suggestions of students.

Attending college council meetings at the invitation of the dean of the college, if necessary.

Student council goals

Creating a link between the students, college, and university administration to communicate and put forward opinions and proposals to improve the academic, educational and service process in the college.

Enhancing participation and cooperation between students, administration and faculty.

Develop students' abilities and encourage them to actively participate in serving local community issues

Develop students' leadership, communication and responsibility skills, which contribute to building a globally competitive student community.

Discovering students' abilities and talents and directing them appropriately.

Participate in organizing and coordinating individual and group student activities and making the most of the available university capabilities.

Educating students and urging them to abide by the provisions and regulations in force at the university, good performance and educational attainment, and good dealing with faculty members and employees.

Develop students' loyalty to their country, universities and colleges.
